

2005

- **December 19, 2005**

Course

XIII ALEMBIC Theoretical and Practical Course of Optical and Electron Microscopy

- **December 14, 2005**

Seminar

FLUORESCENCE TECHNIQUES from Molecular Probes

In collaboration with [Molecular Probes](#)

Fluorescent solutions for Genomics, Proteomics and recent developments for Cellular and Molecular Imaging.

([notice](#))

- **November 29, 2005**

Workshop

Volocity GRID CONFOCAL: structured-light confocal microscopy

In collaboration with [Improvision](#) and [Immagini&Computer](#)

Presentation of Volocity Grid Confocal , structured-light device that does not require the use of lasers for confocal-quality images.

([notice](#))

- **November 9/10/11, 2005**

Workshop

DISCOVERING LIFE WITH Leica

In collaboration with [Leica Microsystems](#)

Meeting to discovery applications and technological innovations with the presentation of the new class of Instruments as Leica Confocal TCS SP5 and Live Cell Imaging System "AF6000LX"

([notice](#))

- **June 22, 2005**

Course

XII ALEMBIC Theoretical and Practical Course of Optical and Electron Microscopy

- **March 18, 2005**

Course

XI ALEMBIC Theoretical and Practical Course of Optical and Electron Microscopy
