

2009

- **December 16 and 17, 2009**
Course
XXIII ALEMBIC Theoretical and Practical Course of Optical and Electron Microscopy
- **November 05th, 2009**
Seminar & Demo
in collaboration with [Schaefer-TEC Italy](#)
(Meeting Room 2A1, 10:00)
“Digital Holographic Microscopy (DHM): Real-time 3D monitoring of living biological specimen”
A demo DH Microscope will be present at Meeting Room and available for everybody interested
Application notes of DHM in Life Science/Living Cells:
 - Living cells analysis with Digital Holographic Microscopy ([Living Cells Analysis](#))
 - Real-time 3D monitoring of living biological specimen by Digital Holographic Microscopy ([Real Time 3-d by DHM](#))
 - Separate measurements of biological specimen 3D morphology and refractive index by DHM ([Living Cell Refractive Index](#))
- **October 13, 2009**
Seminar & Demo
in collaboration with [Nikon Italia](#)
 - Informal Seminar
(Meeting Room 3A3)
“The New Nikon LiveScan Confocal”
 - Demo
[LiveScan Confocal](#) will be available until end 2009 for users interested at ALEMBIC.
Instrument Brochure ([here](#))
- **July 07 and July 10, 2009**
Course
XXII ALEMBIC Theoretical and Practical Course of Optical and Electron Microscopy
- **April 8-15, 2009**
Mini-course
TO DOCTOR OR NOT TO DOCTOR?
La manipolazione delle immagini scientifiche: potenzialità, strumenti sw e aspetti etici
([see notice](#))
- **February 25, 2009 and February 27, 2009**
Course
XXI ALEMBIC Theoretical and Practical Course of Optical and Electron Microscopy
- **January 12, 2009**
ALEMBIC won “IN Cell WORLD IMAGE COMPETITION AWARD”!!!
The [image n° 19: Rat hippocampal neurons and astrocytes](#)
(Courtesy of Franca Codazzi – Cellular Neurophysiology Unit)
will appear in the 2010 GE In Cell Calendar and will be displayed on the first high-definition screen in Times Square, New York on 6-8 March 2009!
