

## 2013

- **November 27 and December 02, 2013**  
Course  
**XXXI ALEMBIC Theoretical and Practical Course of Optical and Electron Microscopy**
  
- **November 7, 2013**  
Seminar in collaboration with [Molecular Probes by LIFE Technologies](#)  
- Seminar (Meeting LaboRaf, -1 DiBIT 2, 09:30)  
Lisa Smolenska – Molecular Probes, Life Technologies  
**Next Generation Molecular Probes® Reagents**  
Molecular Probes, the leader in fluorescence technologies, continues to develop cutting edge fluorescent detection reagents for biomedical research. Application Specialist will show more recent developments and applications for fluorescent sensors for microscopy, flow-cytometry and in-vivo imaging.  
This Events is free but registration is mandatory.  
[See notice](#)
  
- **June 24 and 26, 2013**  
Course  
**XXX ALEMBIC Theoretical and Practical Course of Optical and Electron Microscopy**
  
- **May 31, 2013**  
[ABCD](#) (Associazione di Biologia Cellulare e del Differenziamento)  
meets the San Raffaele's [Imaging Experimental Center](#) (IEC/CIS)  
  
See the video ([part 1](#))  
  
See the video ([part 2](#))
  
- **May 21, 2013**  
Seminar & Demo in collaboration with [PerkinElmer](#)  
- Seminar (Meeting Room 2A1, 10:00)  
Roslyn Lloyd – Application Scientist, Tissue Imaging and Analysis Solutions, PerkinElmer  
Robert Stad – Application Scientist, Confocal and Tissue Imaging Solutions, PerkinElmer  
**“Intelligent Tissue Analysis Technologies, Converting Slides Into Answers”**  
- Demo  
[Multispectral Imaging System](#) for tissue will be available for users interested at ALEMBIC.
