

2020

- **December, 09 2020** | h 11:00 Webinar (download the flyer [here](#)).
in collaboration with [Lunaphore technologies](#)
Instruments for next generation tissue analytics: Ultra rapid and automated microfluidic devices for multiplex sample stainings

[Register now](#)

- **November, 10 2020** | h 11:00 Webinar (download the flyer [here](#)).
in collaboration with [Fluidigm](#)
Helios™ and Hyperion™: CyTOF® Mass Cytometry Technology
[Register now](#)
- **July, from 21 to 31 2020** | On site Demo
in collaboration with [Olympus Life Science Italia](#)

The Olympus SpinSR10 Spinning Disk Confocal: spinning disk confocal super resolution microscope

- **July 14, 21 and 28 2020** | Web-Seminars
in collaboration with [FLIM Labs](#)

- July 14, h 15.00 - Fluorescence Lifetime Imaging Microscopy: Introduction & Overview (1 h)
- July 21, h 15:00 - Fluorescence Lifetime Imaging Microscopy: Phasor Approach (30 min)
- July 28, h15:00 - Fluorescence Lifetime Imaging Microscopy: Tracking Cell Metabolism (30min)

Relator: Alessandro Rossetta, CEO & Founder FLIM LABS

- **February, from 4 to 6 2020** | Seminar (download the flyer [here](#)).
in collaboration with [Nikon Italia](#) and [CrestOptics](#)
The [NEW XLight V3](#) Spinning Disk Confocal

Program:

February 4 | *Seminar*
Aula Nina, DIBIT1, - 1S floor, h 11.00
From 4 to 6 | *On-site demo*
slots available on demand

- **January, 29 2020** | Seminar (download the flyer [here](#)).
in collaboration with [Sartorius](#)
Live-Cell Analysis Workshop:
News from [IncuCyte S3](#)® and troubleshooting

- **January, 23 2020** | Seminar (download the flyer [here](#)).
in collaboration with [ARIVIS](#)
[ARIVIS Vision 4D](#) - ANALISI QUANTITATIVA MULTIDIMENSIONALE DELLE IMMAGINI
Arivis 4D is a new software, now available at ALEMBIC, for visualization and analysis of multi-dimensional (2D, 3D and 4D) image data of almost unlimited size
