

**Request Form: OSR user**  
**Protein Microsequencing Facility: ProMiFa**

Dibit 2, C1, 4th floor  
Via Olgettina, 60-Milan  
Phone: +39-02-26432714/2253/4928  
Fax: +39-02-26436585  
e-mail: annapaola.andolfo@hsr.it

**User informations:**

Name:.....Phone:.....e-mail:.....

Lab.:.....Division:.....Internal order/Grant ID:.....

Signature of Group leader:.....

**Requested analysis:**

**Protein characterization**

Protein/peptide analysis by HPLC/MS and MS/MS

Sample purification (zip tip or similar) and intact protein MW determination by nanospray off line MS

**Protein identification: PMF and sequencing**

PTM-characterization: validation by Western Blotting and 2DE +/- removal of the PTM

Phosphorylation characterization by TiO<sub>2</sub> or IMAC enrichment and mass spectrometry

Identification of a spot or band by in gel digestion and LC-MS/MS

**Biomarker profiling in biological samples by 2DE, image analysis and statistical evaluation**

Differential protein display in control vs patient biological samples: plasma, serum, urine, tissue

Six samples: control vs treated/patient in triplicates

**Quantitative protein profiling by mass spectrometry and statistical analysis**

Differential protein display in two or more diverse conditions using:

iTRAQ or TMT labelling of peptides (run in technical duplicate)

SILAC methodology (run in technical duplicate)

Label-free approach (run in technical triplicate)

**Metabolomics/Lipidomics by mass spectrometry and statistical analysis**

Untargeted workflow for differential small molecules/lipids display in: plasma, serum, urine, tissues

**Quantitative Metabolomics/Lipidomics by mass spectrometry and statistical analysis**

Targeted workflow for specific small molecules/lipids display in: plasma, serum, urine, tissues

**Access to MS**

**Data analysis**

**Sample informations (according to the wanted activity, fill in the fields):**

Sample name or gel ID number:

Buffer/solvent composition:

Quantity and volume:

Expected mass (for peptides, indicate the protecting groups):

Organism or source of protein sample:

Number of bands/spots to be identified:

**FACILITY USE ONLY:**

Date of receipt:

Analysis Performed:

N° of samples analysed:

Cost (€):
