

73rd Twin Helix seminar

Tailored Solutions for Advanced Cell Imaging in 2D and 3D Applications

Topics:

- ▶ Introduction to ibidi μ -Slide and μ -Dishes
- ▶ Solution for Cell-based assay
- ▶ Live Cell Imaging
- ▶ Focus on 3D cell culture

High quality images of cells, require innovative technologies that enable scientists to tackle the underlying mechanisms of major illnesses such as cancer, cardiovascular conditions, and autoimmune diseases. This seminar will focus on how to link optimized cell culture with cell-based assays and high-end microscopy. Take a closer look how ibidi could support you with its integrated approach to cellular microscopy and cell-based assays.

In collaboration with

15 Aprile 2026 ore 11,00

Aula COSTANTINO (DiBiT1, piano -1s) - San Raffaele
Milano

Speakers :

Dajana Preuß International Partner Manager ibidi GmbH, Germany
